Burning Question

Are the Common Core K-12 State Standards final?

Yes, the final version of the national Common Core K-12 State Standards for English Language Arts and Mathematics were released on June 2, 2010. The EdGate Standards Repository includes these updates. However, are they really final?

Since the adoption of these standards play heavily on state education departments, we wanted to share a recent debate published by the Cato Institute regarding education reform and the controversy surrounding these standards and the Race to the Top funding.

Welcome to The EdGate Observer!

Another school year has finished and summer begins! Time for some much-needed vacations, family fun, and nice weather! The Pacific Northwest has been especially wet this year, so bring on the sun!

In this issue of The EdGate Observer, we focus on the finalized Common Core standards and an interesting debate in the [Burning Question](#), social studies in education under [Hot Topic](#), and conclude with the [Standards Update](#) section.

We welcome any questions, thoughts or comments you may have.

Regards,
Sandra Schugren, EdGate General Manager

Hot Topic

It's official...After much debate, the Texas State Board of Education adopted controversial Social Studies standards to be used in classrooms beginning in the 2011-2012 school year.

Whether you consider yourself a conservative, liberal, or independent, there is no doubt that students are impacted in the area of history curriculum. Other states also wrestle with their standards in this subject area due to the sheer volume of material.

For example, World History standards alone can encompass any or all of the following topics:

- Ancient Civilizations
- Middle Ages
- Renaissance
- Reformation
- Age of Exploration
- Industrial Revolution
- Imperialism and Nationalism
- Indigenous Populations
- World Cultures
- Revolutions
- World War I
- World War II
- Holocaust
- Cold War
- Korean and Vietnam War
- Global Interdependence
- Current Conflicts and Issues

Regardless of any controversies, [EdGate Correlation Services](#) will continue to provide the most up-to-date standards in our repository as they are made available.

Jennifer Larson
Social Studies Project Manager

About Us

Founded in 1997, **EdGate Correlation Services** (EdGate) is a leader in the field of aligning educational content to U.S. states, Canadian, and international standards.

Through the power of our technology and the professional experience of our subject-area specialists, **EdGate** provides more than 125 educational publishing clients with **accurate and continually updated correlations, on-demand correlation reporting capabilities, and effective website integration options.**

EdGate can also provide standards licensing, customized taxonomy solutions, correlation to assessment standards, and more.

Client Solutions

Publishers Gain No-cost Access to Thousands of Educators per Month

Looking for a no-cost way to provide teachers with information about your content?

EdGate's newly-relaunched **Curriculum Matrix®** is a powerful web-based search tool that allows educators to view aggregated content aligned to specific standards, curricular concepts, or textbook page references. In addition to providing teachers with access to 100,000 fully correlated open-source curricular content, your relationship with EdGate provides an opportunity to opt-in and include links to your content marketing information.

For a demonstration and more information about how your content can be included in the Curriculum Matrix®, please contact either **Bill Walsh** (bwalsh@edgate.com) or **Leslie Kolber** (lkolber@edgate.com). They'll be happy to help.
